

Town Square Little Quilt

Make 4 blocks

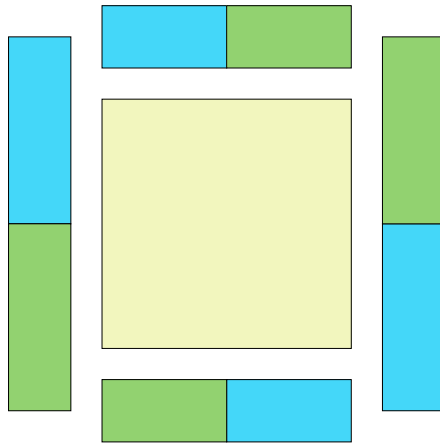

Cut the following

Four 8.5 inch squares from your novelty fabric

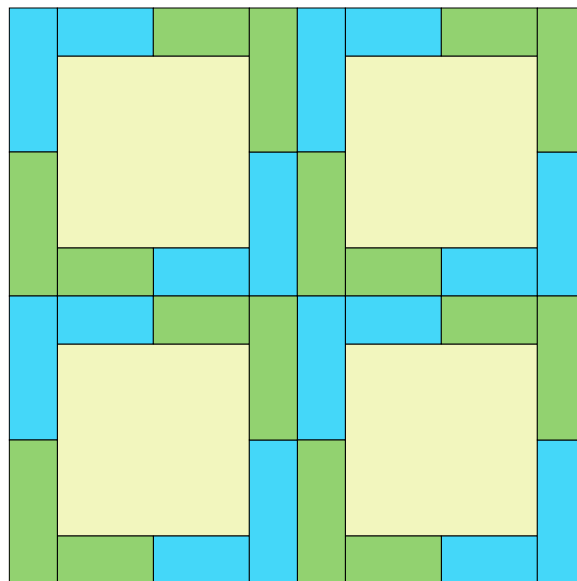

Eight 2.5 x 4.5 inch rectangles from each of your two framing fabrics

Eight 2.5 x 6.5 inch rectangles from each of your two framing fabrics

Make each block as shown below, press seams to the darker fabric when piecing the rectangles and toward the center block when assembling.

Assemble quilt as shown below

This is the first Town Square Little Quilt I made. The focus blocks were cut smaller because I was using leftovers and that's the size I was able to cut. The framing fabrics were a cut a little larger to make up for the smaller block.

You can adapt the pattern to fit the scraps you have.
